

ENVIRONMENTAL POLICY

Anixter Industrial provides a complete Supply Chain Management service for a wide range of fasteners, adhesives and 'C' components and is dedicated to achieving customer satisfaction through efficiency in all areas.

Respect for the environment, compliance with legislation and striving for the highest standards in all of our operations is an integral part of the organisation's business and profit strategy. As part of our Environmental Management System, we are committed to continual improvement in:

- **The use of processes, practices, materials or products, which avoid, reduce or control pollution.**
- **The efficient use of energy.**
- **Risk reduction to our employees, the eco system and the community at large.**
- **The procurement of environmentally balanced products or services.**
- **The encouragement of our suppliers to be environmentally aware.**
- **The prevention of pollution.**

All employees are encouraged to play a full part in achieving the company's environmental policy and are given the appropriate training and encouragement to make this possible.

We will comply with all relevant environmental legislation and regulations and fulfil any other environmental commitments, maintaining close liaison with the appropriate regulators and other relevant organisations.

Targets and Objectives

Targets and objectives will be set to achieve this policy and will be reviewed regularly.

Anixter Industrial will maintain internal procedures to support this policy. Regular audits of the effectiveness of the environmental management system will be conducted and the policy updated as appropriate.
